

ZET Litter bin

KZE13

The picture is only illustrative, it may not exactly match the product described.

Product description

The body of the basket consists of a weldment made of 3 and 4 mm thick sheet metal sections welded on a column made of 80x40 mm bent U-profile made of galvanized steel class 11 and subsequently treated with powder burning paint. The cladding is made of solid wood slats. There are 22 slats of rectangular cross-section with dimensions 21x26 mm and 1 slat of rectangular cross-section with dimensions 21x68 mm. The hinged lid of the basket has a hole of \varnothing 128 mm for the waste to be thrown in. Inside the bin there is a removable galvanised container with a thickness of approx. 0,8 mm with a capacity of 45 l. A holder for dog excrement bags is attached to the basket.

Material

Construction: steel grade 11
Solid wood: wood pine ThermoWood®, tropical wood
